

## TWISTED EUROFLEX®

3 strands **Euroflex®** ropes, although comparable to Nylon in strength, offers some essential advantages.

As this material is not influenced by either water or UV radiation, the rope remains flexible, and keeps its softness to the touch.

This rope does not lose strength when in contact with water.

Diameter mm	Weight g/m	MBF kN	MBF tf
8	37	13,2	1,35
10	55	20,4	2,08
12	80	29,4	3,00
14	109	40,2	4,10
16	141	52,0	5,30
18	178	65,7	6,70
20	221	81,4	8,30
22	268	98,0	10,0
24	319	118	12,0
26	372	137	14,0
28	434	155	15,8
30	495	174	17,7
32	565	196	20,0
36	714	244	24,9
40	884	294	30,0
44	1080	351	35,8
48	1280	412	42,0
52	1500	460	46,9
